KEY FEATURE Metal-framed door

With its ultra-clean lines and iconic furniture and artwork, it's hard to believe that Lisa and Richard's home is actually a period property. One telltale feature of its original design is this arched door leading outside from the living room. To re-create the look, Tessa Clement-Jones, director of specialist supplier Clement (clementwindows.co.uk), recommends 'our EB24 super-slim but strong steel sections with a genuine T bar, using double-glazed units. We estimate the cost would be approx £8,500, including installation and VAT.'
